Dear Blake:

I wanted to take a moment just to say "thanks!"

Since the first airplane that you bought for me in 1989 to the most recent, I've always been able to count on you for straightforward answers and an airplane that perfectly fit my mission. Your expertise and friendly approach has allowed me to put my focus on growing my business knowing that my aviation needs are in great hands.

With my businesses now spread out throughout the United States I can tell you that our growth simply would not have been as robust without my airplanes. As I've mentioned to you before, when it comes to all things aviation you're the one I'll always call.

God bless you Blake, and by the way, I'm about 7-8 months away from a Citation!

Warmly,

Richard Headrick
