Dear Blake:

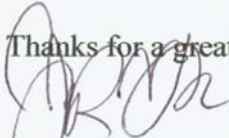

I wanted to write and say THANK YOU! You and your staff did an outstanding job on the sale of N145CD to my company. It's such a pleasure dealing with professionals.

I know I had many questions during the purchase discussions. Thanks for always addressing them as if this were a multi-million dollar sale. From the first phone call that I made to you through closing you were easy to reach, a pleasure to talk to and always had or found the answer that I was seeking. By the way, I really think that you are on to something with your Plus Program. This was one of the factors that swayed us to your aircraft over comparable planes on the market.

Finally, after fretting over my schedule, your suggestion to have your Cirrus Standardized flight instructor deliver my aircraft right to my front door worked beautifully! Bringing the training to my airport just capped off an already flawless transaction.

Blake I wish you continued success. I'll be calling you in about a year to trade up to my next aircraft.

Thanks for a great experience!

  
Jason Thompson, CA
